

# @heyOcto Assistance

Project templates can be initiated by the learning partner or the learner, with assistance from @heyocto.

A learning partner, can set up a base template that covers the outcomes, rules, resources, support-items, skills required & gained.

A learner, they can clone a project from a base template that, during the cloning, is adjusted by @heyocto based on their attributes, and subsequent conversations with @heyocto.

1| Create Base Template Setup

2| Create Template & Project for Learner based on their Attributes e.g. Age, Interests, Skills etc & the Base Template.

3| Do Project
